* Data revised.

According to preliminary data, **the prices of sold production of industry** in November 2017 were by 0.1% higher than in the previous month. The growth of prices was recorded in manufacturing by 0.1%, of which the biggest in manufacture of coke and refined petroleum products (by 4.3%). Higher than in the previous month were also prices in manufacture of tobacco products (by 1.2%), of paper and paper products, of beverages (by 0.5% each), of chemicals and chemical products (by 0.3%), of basic metals, of machinery and equipment as well as of products of wood, cork, straw and wicker (by 0.1% each). The drop of prices was recorded among other things in manufacture of rubber and plastic products, of other non-metallic mineral products, of furniture (of 0.1% each), of food products, of computer, electronic and optical products, of pharmaceutical products (of 0.2% each), of metal products, of other transport equipment, of textiles, of wearing apparel (of 0.3% each), of electrical equipment (of 0.4%), of motor vehicles, trailers and semi-trailers, of leather and related products, of printing and reproduction of recorded media (of 0.6% each). Prices in mining and quarrying reached the level similar to the one recorded in October 2017. Prices in sections: water supply; sewerage, waste management and remediation activities were lower of 0.1% as well as in electricity, gas, steam and air conditioning supply - of 0.6%.

In comparison to December of the previous year the prices of sold production of industry were higher by 0.7%. The prices in section water supply; sewerage, waste management and remediation activities were higher by 1.4%. The growth of prices was recorded in manufacturing by 0.8%, of which the biggest in manufacture of basic metals (by 6.8%). The growth of prices was recorded in manufacture of coke and refined petroleum products (by 3.9%), of chemicals and chemical products (by 3.7%), of paper and paper products (by 2.8%), of food products (by 2.1%), of beverages (by 1.6%), of leather and related products (by 1.3%), of products of wood, cork, straw and wicker (by 1.0%), of wearing apparel (by 0.9%), of other non-metallic mineral products (by 0.6%) as well as of pharmaceutical products (by 0.2%). Prices in manufacture of metal products as well as of printing and reproduction of recorded media reached the level similar to the one recorded in December 2016. The drop of prices was recorded among other things in manufacture of tobacco products (of 0.1%), of rubber and plastic products, of electrical equipment (of 0.9% each), of computer, electronic and optical products (of 1.3%), of furniture (of 1.4%), of machinery and equipment (of 1.5%), of motor vehicles, trailers and semi-trailers (of 1.8%), of textiles (of 2.2%) as well as of other transport equipment (of 4.8%). The prices in mining and quarrying reached the level similar to the one recorded in December 2016. The prices in section electricity, gas, steam and air conditioning supply were lower of 0.7%.

In November 2017 the prices of sold production of industry were by 1.8% higher than a year earlier. Prices in mining and quarrying were higher by 5.0%. The growth of prices was also recorded in sections: water supply; sewerage, waste management and remediation activities - by 2.1%, manufacturing - by 1.9%. Lower were prices in section electricity, gas, steam and air conditioning supply - of 0.7%.

It is estimated that in November 2017 **the prices of construction and assembly production** were by 0.3% higher than in the previous month. The growth of prices was recorded in construction of buildings, in civil engineering as well as in specialised construction activities (by 0.3% each).

In November 2017 the prices of construction and assembly production were by 1.2% higher than in December of previous year and by 1.3% higher than in November of the previous year.
