

Index numbers of industrial and construction-assembly production in June 2015^{a)}

In June of 2015, **sold production of industry** was by 7.6% higher than in June of 2014, whereas a decrease of 2.5% was reported in **construction-assembly production**. In the period January-June of 2015, sold production of industry was by 4.6% higher than in the corresponding period of 2014 which saw a 4.3% increase, whereas construction-assembly production was by 1.0% higher than in the corresponding period of 2014 which saw a 9.8% increase.

Index numbers of industrial and construction-assembly production in real time (constant prices) were:

Specification	VI		I-VI ^{b)}	VI
	previous month = 100	corresponding period of previous year = 100		monthly average of 2010 = 100
INDUSTRIAL UNITS				
Total	104.7	107.6	104.6	120.9
mining and quarrying.....	96.7	105.4	103.1	98.1
manufacturing.....	106.0	108.9	105.6	127.3
electricity, gas, steam and air conditioning supply.....	93.8	92.6	95.6	77.0
water supply; sewerage waste management and remediation activities.....	105.4	105.9	103.9	123.2

Total	112.4	97.5	101.0	105.9

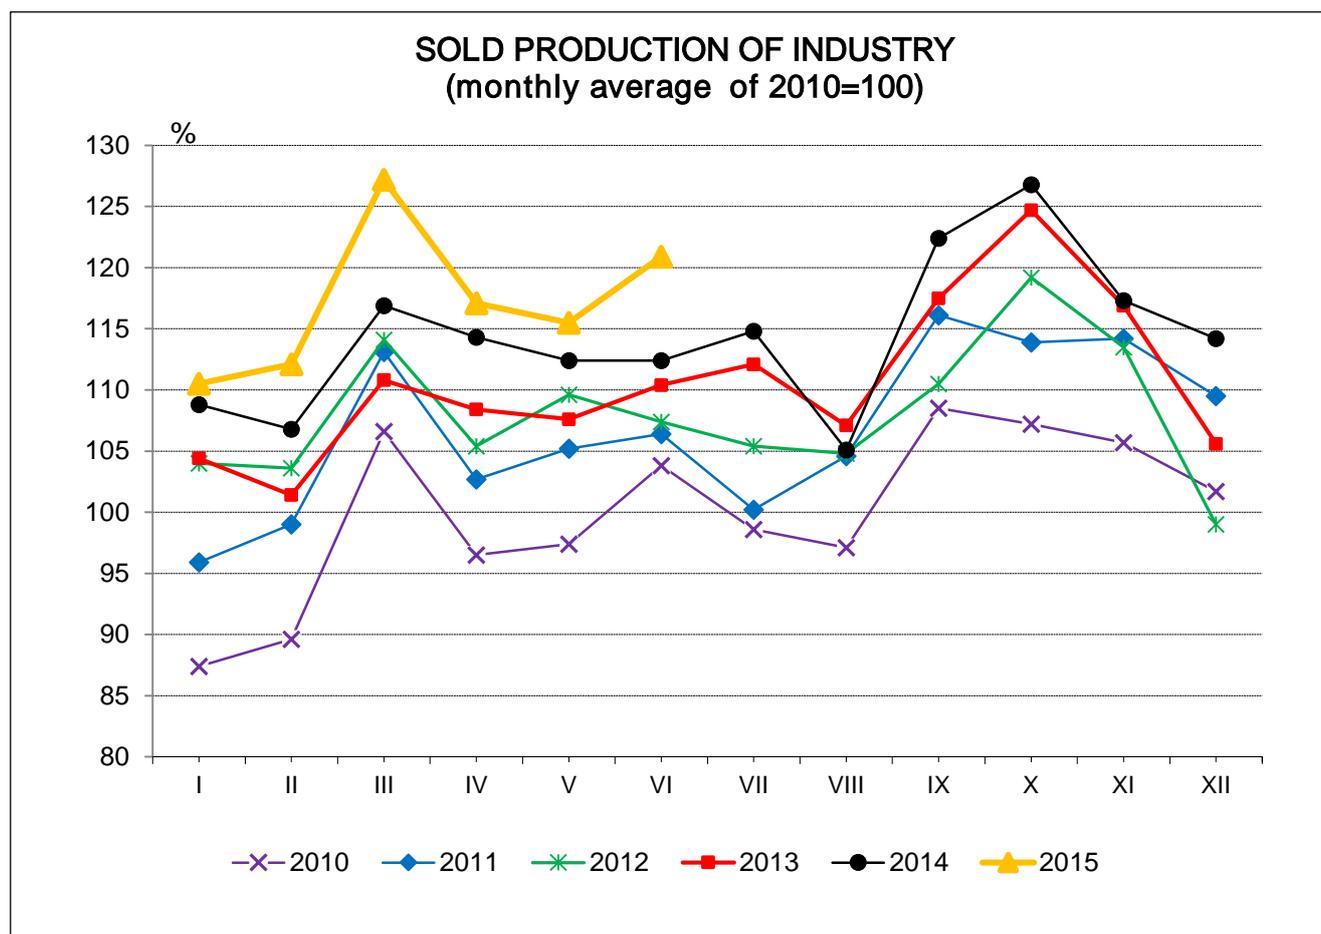

^{a)} Reported data; comprise enterprises employing over 9 persons.

^{b)} Data including final information on production and prices in May and reported data – in June.

According to the preliminary data, **sold production of industry** in constant prices (in enterprises employing more than 9 persons), in June of 2015, was by 7.6% higher than in the previous year (when an increase of 1.8% was recorded) and by 4.7% higher than in May of 2015. After eliminating the seasonal factors, sold production of industry reached the level higher by 5.2% than in the corresponding month of 2014 and by 0.5% higher than in May of 2015.

As compared to June of 2014, an increase in sold production was reported in 29 (out of 34) industry divisions, among others, in manufacture of electrical equipment – by 25.1%, manufacture of machinery and equipment – by 16.3%, manufacture of furniture – by 15.2%, manufacture of rubber and plastic products – by 12.0%, manufacture of metal products – by 10.7%, manufacture of motor vehicles, trailers and semi-trailers – by 9.5%, manufacture of coke and refined petroleum products – by 8.6%, manufacture of chemicals and chemical products – by 8.6%. A drop in sold production of industry, as compared to June of 2014, was recorded in 5 divisions, among others, in electricity, gas, steam and air conditioning supply – by 7.4%, manufacture of beverages – by 5.4%.

Indices of sold production of industry in comparison with an average monthly level in 2010 are presented in the graph below:

According to preliminary data, **construction and assembly production** (in constant prices), including investment and repair work, carried out domestically by construction enterprises employing more than 9 persons, was in June of 2015 by 2.5% lower than a year before (when an increase was recorded by 8.0%) and by 12.4% higher in comparison to May of 2015. After eliminating the seasonal factors, construction and assembly production reached the level by 3.3% lower than in June of 2014 and by 4.2% lower in comparison to May of 2015.

In relation to June of 2014, a decrease in production was recorded in entities specializing in civil engineering – by 8.6% and in entities dealing mainly with specialised construction activities – by 4.9%, while an increase in production occurred in entities whose basic type of activity is the construction of buildings – by 7.7%.

In comparison to May of 2015, an increase in production was recorded in all divisions of construction: in entities whose basic type of activity is civil engineering – by 18.4%, in enterprises specialized in the construction of buildings – by 12.6% and in entities specialized in the construction of buildings – by 4.6%.

Indices of the construction and assembly production, in comparison with an average monthly level in 2010, are presented in the graph below:
