

Index numbers of industrial and construction-assembly production in November 2015^{a)}

In November of 2015, **sold production of industry** was by 7.8% higher than in November of 2014, whereas an increase of 1.2% was reported in **construction-assembly production**. In the period January-November of 2015, sold production of industry was by 4.7% higher than in the corresponding period of 2014 which saw a 3.0% increase, whereas construction-assembly production was by 3.3% higher than in the corresponding period of 2014 which saw a 3.1% increase.

Index numbers of industrial and construction-assembly production in real time (constant prices) were:

Specification	XI		I-XI ^{b)}	XI
	previous month = 100	corresponding period of previous year = 100		monthly average of 2010 = 100
INDUSTRIAL UNITS				
Total	97.4	107.8	104.7	126.4
mining and quarrying.....	93.3	101.2	101.2	99.9
manufacturing.....	96.9	109.3	105.6	130.7
electricity, gas, steam and air conditioning supply.....	105.2	98.1	97.2	105.9
water supply; sewerage waste management and remediation activities.....	99.6	102.9	103.5	117.4
CONSTRUCTION UNITS				
Total	96.6	101.2	103.3	122.0

^{a)} Reported data; comprise enterprises employing over 9 persons.

^{b)} Data including final information on production and prices in October and reported data – in November.

According to the preliminary data, **sold production of industry** in constant prices (in enterprises employing more than 9 persons), in November of 2015, was by 7.8% higher than in the previous year (when an increase of 0.3% was recorded) and by 2.6% lower than in October of 2015. After eliminating the seasonal factors, sold production of industry reached the level higher by 5.2% than in the corresponding month of 2014 and by 0.7% higher as compared to October of 2015.

As compared to November of 2014, an increase in sold production was reported in 30 (out of 34) industry divisions, among others, in manufacture of other transport equipment – by 79.7%, manufacture of motor vehicles, trailers and semi-trailers – by 14.7%, manufacture of pharmaceutical products – by 14.2%, manufacture of rubber and plastic products – by 13.7%, manufacture of furniture – by 12.9%, manufacture of electrical equipment – by 11.4%, printing and reproduction of recorded media – by 10.7%, manufacture of products of wood, cork, straw and wicker – by 9.9%, manufacture of chemicals and chemical products – by 9.2%. A drop in sold production of industry, as compared to November of 2014, was recorded in 4 divisions, among others, in manufacture of coke and refined petroleum products – by 6.8% and electricity, gas, steam and air conditioning supply – by 1.9% .

Indices of sold production of industry in comparison with an average monthly level in 2010 are presented in the graph below:

According to preliminary data, **construction and assembly production** (in constant prices), including investment and repair work, carried out domestically by construction enterprises employing more than 9 persons, was in November of 2015 by 1.2% higher than a year before (when a decrease was recorded by 1.6%) and by 3.4% lower in comparison to October of 2015. After eliminating the seasonal factors, construction and assembly production reached the level by 1.9% lower than in November of the previous year and by 2.9% higher in comparison to October of 2015.

In relation to November of 2014 an increase in production was recorded in entities whose basic type of activity is civil engineering – by 3.5% and in entities dealing mainly with construction of buildings – by 0.6%, a decrease was noted in entities involved in specialised construction activities – by 2.2%.

In comparison to October of 2015 an increase in production was recorded in entities specialised in civil engineering – by 3.2%, a decrease was noted in entities whose basic type of activity is construction of buildings – by 8.5% and in entities dealing mainly with specialised construction activities – by 7.0%.

Indices of the construction and assembly production, in comparison with an average monthly level in 2010, are presented in the graph below:
