

Index numbers of construction and assembly production in December 2020¹

22.01.2021

103.4

Index number of construction and assembly production as compared to December of 2019

According to preliminary data construction and assembly production (in constant prices) carried out domestically by construction enterprises employing more than 9 persons was in December 2020 by 3.4% higher than a year before (against a decrease by 3.3% the year before) and by 34.4% higher compared with November 2020 (against an increase by 23.7% the year before).

Table 1. Index numbers of construction and assembly production (constant prices)

SPECIFICATION	XII 2020		I-XII 2020 ²
	XI 2020=100	XII 2019=100	I-XII 2019=100
CONSTRUCTION	134.4	103.4	97.8
Construction of buildings ^Δ	130.5	104.1	95.1
Civil engineering works ^Δ	137.5	99.0	98.0
Specialised construction activities	133.4	112.0	101.3

^Δ Abbreviated form according PKD 2007.

In comparison to December 2019 the increase in the value of construction and assembly production was recorded in entities performing specialised construction activities (12.0%) and whose basic type of activity was construction of buildings (4.1%), the decrease was noted in entities dealing mainly with civil engineering works (1.0%).

In comparison to December 2019 the increase in the value of construction and assembly production was recorded in entities performing specialised construction activities and construction of buildings.

¹ Reported data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

² Data including final information on production and prices in November and reported data in December.

Compared with November 2020, the increase in the value of works carried out were noted in all divisions of construction, i.e. in entities dealing mainly with civil engineering works by 37.5%, in entities performing specialised construction activities by 33.4% and whose basic type of activity was construction of buildings by 30.5%.

In the period January-December 2020 the increase in the value of construction and assembly production in the corresponding period of 2019 was noted in entities whose basic type of activity were specialised construction activities (1.3%), the decrease was noted in entities dealing mainly with civil engineering works (2.0%) and in whose basic type of activity was construction of buildings (4.9%).

Value of construction and assembly production including investment works in December 2020 was by 7.7% higher than in the corresponding period of 2019 (against an decrease by 3.7% in the year before), whereas works with a restoration character decreased by 3.1% (an decrease by 2.5% the year before).

In the period January-December 2020 an decrease in the value of investment works was by 1.1% lower than in the corresponding period of 2019, and works with a restoration character by 4.0% the year before (against corresponding increases by 3.0% and 2.1% in 2019).

Chart 1. Index numbers of construction and assembly production (constant prices; average monthly base 2015=100)³

Index number of construction and assembly production in December 2020 (in constant prices) compared to the average monthly value of 2015 was 177.1.

After eliminating the seasonal factors, construction and assembly production reached the level by 2.1% lower than in December 2019 and by 1.9% higher in comparison to November 2020.
