

Index numbers of construction and assembly production in February 2019^{a)}

21.03.2019 r.

115.1

Index number of construction and assembly production as compared to February of 2018

In February of 2019 value of construction and assembly production in constant prices increased, both in a monthly and increasing basis, compared to corresponding periods of the previous year.

According to preliminary data, construction and assembly production (in constant prices) carried out domestically by construction enterprises employing more than 9 persons was in February of 2019 by 15.1% higher than a year before and compared with January this year (against an increase accordingly by 31.3% and 3.3% the year before). In the period January-February of 2019 construction and assembly production was by 8.4% higher in comparison to the same period of 2018, which saw an increase of 32.3%.

In the first two months of 2019 increase in the construction and assembly was by 8.4% comparing to the same period of the previous year

Table 1. Index numbers of construction and assembly production (constant prices)

SPECIFICATION	II 2019		I-II 2019 ¹
	I 2019=100	II 2018=100	I-II 2018=100
CONSTRUCTION	115,1	115,1	108,4
Construction of buildings ^Δ	113,3	127,9	111,6
Civil engineering works ^Δ	120,0	116,3	112,3
Specialised construction activities	112,7	99,2	100,5

^Δ Abbreviated form according PKD 2007.

¹ Data including final information on production and prices in January and reported data in February.

^{a)} Reported data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

In comparison to February of 2018 an increase value of construction and assembly production was recorded in entities whose basic type of activity were the construction of buildings (27.9%) and civil engineering works (16.3%) and, whereas a decrease by 0.8% was noted in entities performing specialised construction activities.

Compared with January of 2019 an increase of value works carried out was noted in all divisions of construction: in entities dealing mainly with civil engineering works - by 20.0%, performing specialised construction activities – by 13.3% and in entities whose basic type of activity was the construction of building – by 12.7%.

In the period January-February of 2019 the highest increase (12.3%) was recorded in entities whose basic type of activity were civil engineering works. Increases have noticed in entities dealing mainly with the construction of buildings (11.6%) and in entities performing specialised construction activities (0.5%).

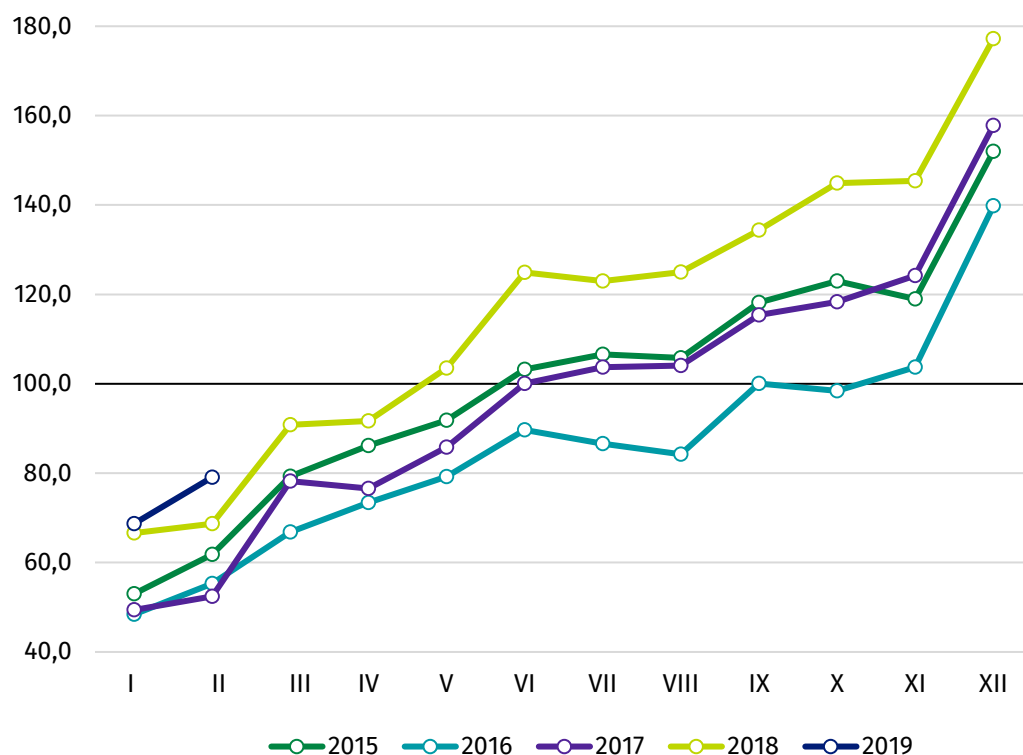

Value of construction and assembly production including investment works in February of 2019 was by 18.0% higher than in the corresponding period of 2018 (against an increase by 33.9% the year before), whereas works with a restoration character increased by 10.1% (against an increase by 27.2% the year before).

In the period January-February of 2019 an increase of value investment works was by 6.9% higher than in the corresponding period of 2018 and works with a restoration character by 11.2% (against corresponding increases by 36.7% and 24.9% of 2018).

In February of this year in comparison to February of 2018 the highest increase value of construction and assembly production was noted among entities whose basic type of activity was the construction of buildings

Value of investment works in the first two months of 2019 increased by 6.9% y/y

Chart 1. Index numbers of construction and assembly production (constant prices) - average monthly base 2015=100²

² Reported data for February of 2019.

Index number of construction and assembly production in February of 2019 (in constant prices) compared to the average monthly value of 2015 was 79.1.

After eliminating the seasonal factors, construction and assembly production reached the level by 13.0% higher than in February of 2018 and by 7.0% in comparison to January of 2019.
