

Index numbers of construction and assembly production in September 2021¹

21.10.2021

104.3

Index number of construction and assembly production as compared to September 2020

According to preliminary data, in September 2021, construction and assembly production (in constant prices) carried out domestically by construction enterprises employing more than 9 persons was by 4.3% higher than in the corresponding period of 2020 (a decrease of 9.8% the year before) and by 9.3% higher compared to August 2021 (an increase of 15.5% the year before).

Table 1. Index numbers of construction and assembly production (constant prices)

SPECIFICATION	IX 2021		I-IX 2021 ²
	VIII 2021=100	IX 2020=100	I-IX 2020=100
CONSTRUCTION	109.3	104.3	101.4
Construction of buildings ^Δ	116.3	96.4	96.0
Civil engineering works ^Δ	108.3	101.2	100.0
Specialised construction activities	103.9	121.7	110.6

^Δ Abbreviated form according PKD 2007.

In comparison to September 2020, the highest increase in the value of construction and assembly production (similar like last month) was recorded in entities performing specialised construction activities of 21.7%. In entities dealing mainly with civil engineering works increased by 1.2%, whereas the decrease was noted in entities whose basic type of activity was construction of buildings of 3.6%.

¹ Reported data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

² Data including final information on production and prices in August and reported data in September.

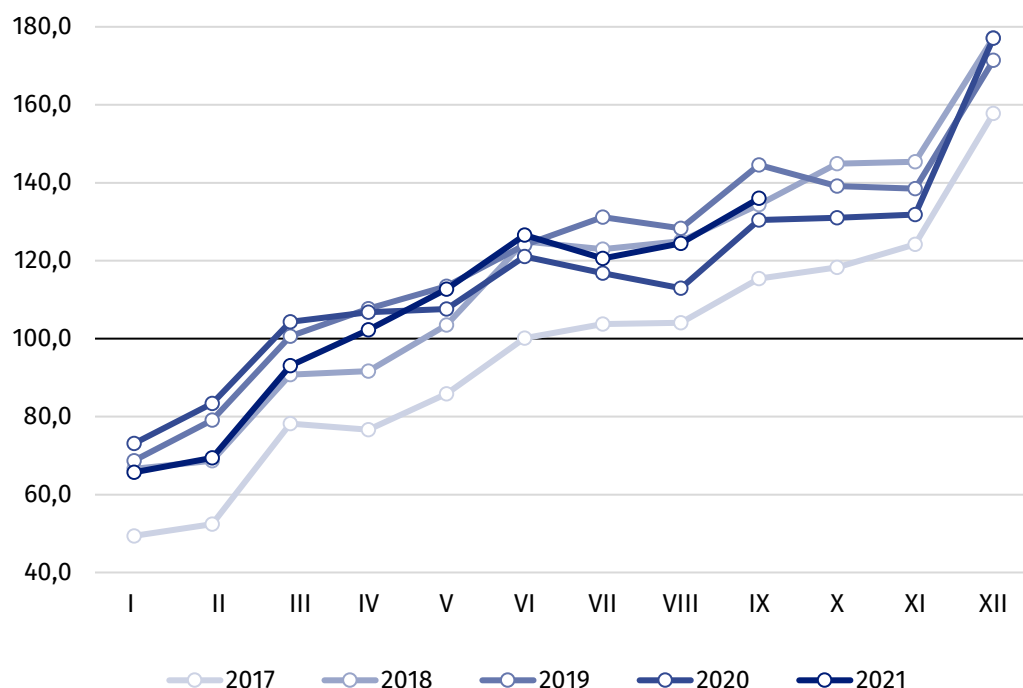

Compared to August 2021, increases in the value of works carried out were noted in all divisions of construction, i.e. in entities whose basic type of activity was construction of buildings of 16.3%, dealing mainly with civil engineering works of 8.3% and in entities performing specialised construction activities of 3.9%.

In the period of three quarters 2021, in relation to the same period 2020, an increase in the value of construction and assembly production was noted in entities performing specialised construction activities (10.6%), whereas a decrease was recorded in entities dealing mainly with construction of buildings (4.0%). In entities whose basic type of activity were civil engineering value of construction and assembly production was at the level similar to the one noted in corresponding period of 2020.

Sales of construction and assembly production in September 2021, compared to the corresponding period of 2020 increased both for investment works by 1.8% and restoration works by 8.5% (against decreases of 5.3% and 16.5% the year before).

In the period of January-September 2021, in relation to the same period of the previous year, there was a decrease in the value of investment works of 3.6% (in 2020 an increase of 0.2%) whereas works with a restoration character increased by 9.9% (a decrease of 4.4% was noted in 2020).

Chart 1. Index numbers of construction and assembly production (constant prices; average monthly base 2015=100)³

Index number of construction and assembly production in September 2021 (in constant prices) compared to the average monthly value of 2015 was 136.0.

After eliminating the seasonal factors, construction and assembly production reached the level by 4.2% higher than in the corresponding month 2020 and by 2.0% lower in comparison to August 2021.
