Warsaw 2019

DEAR READERS,

EDITORIAL TITLE-PLAN OF REGIONAL STATISTICAL OFFICES 2019 was prepared on the basis of unit plans prepared by individual offices. It contains a summary of publication items planned to be issued this year by sixteen statistical offices.

Statistical offices run retail sales and mail order sales of own publications and selected Statistics Poland publications.

At the end of this brochure, we provide contact details of statistical offices where you can place orders for publications in writing or by telephone.

Individual statistical offices, as publishers, reserve the right to slight changes in the number of published publications, form and dates of their publication. If the office does not publish a publication presenting the results of any of the conducted statistical surveys, then it guarantees access to this information in a different form (printouts, electronic form, Internet).

We encourage you to use publications of Regional Statistical Offices and of the Statistics Poland.
